

About Us

Welcome to Mahasulph India

At Mahasulph India, we are committed to empowering agriculture through high-quality, sustainable fertilizer solutions. Established in 2019, our company has grown into a trusted name in the agricultural manufacturing sector, supporting farmers and agribusinesses with innovative crop nutrition products.

Who We Are

We are a leading importer and manufacturer of fertilizers and soil enhancement products, dedicated to improving crop yield, soil health, and farmer prosperity. With a strong focus on research, quality, and sustainability, we serve customers across India.

Our Mission

To enhance agricultural productivity by providing reliable, eco-friendly, and scientifically developed fertilizers that contribute to sustainable farming and food security.

Our Vision

To become a globally recognized leader in fertilizer manufacturing by delivering innovative solutions, superior quality, and long-term value to the agricultural community.

Our Products

We offer a wide range of agricultural inputs, including

NPK Water Soluble Fertilizers

Bio Stimulants Fertilizers

Organic Fertilizers

Micronutrients

Soil Conditioners

All our products are imported and manufactured using advanced technology and strict quality standards.

Our Commitment to Sustainability

We believe in responsible agriculture. Our manufacturing processes are designed to:

Minimize environmental impact

Promote soil health.

Support sustainable farming practices
